

## *Literacy First.....*

What does retelling, summarizing, main idea, predicting, clarifying and questioning all have in common? These are essential comprehension skills that every child needs in order to understand the text that they read.

Teachers use a variety of tools to help your child comprehend such as graphic organizers, modeling 'think-alouds' while reading, activating their prior knowledge to help 'hook' your child to the text and asking higher-level thinking questions.

Some ways you can help your child comprehend the text or passages they are reading are to start with that emotional hook. Ask your child why they chose the book they picked out at the library or MIRP. What do they know about the topic or some key vocabulary words? Model a 'think-aloud' such as 'I'm wondering why there is an empty lake on the front cover...' Ask your child to identify some words that they might need clarified. Have them predict what will happen before they start the next chapter.

Showing an interest and engaging in your child's reading will help cement those comprehension skills and instill a love for reading.

If you have any questions about Literacy First please feel free to contact your child's teacher, myself or check out the official website:
