### “What is the ASQ”?

Screening young children is an effective, efficient way for professionals to check a child’s development, help parents celebrate their child’s milestones and know what to look for next, and determine whether follow-up steps are needed. It’s also an essential first step toward identifying children with delays or disorders in the critical early years, *before* they start school.

**This screening takes approximately 15-20 mins.**

## Field Day

Field day is going to look a little different this year. The students will have field day events during their scheduled “Specials” class time. No parents or visitors will be able to attend to allow for social distancing. PTO will be taking pictures, and will be posting them on social media. Please be sure to have your students wear tennis shoes the first week of May.

## Talent Show

Here’s the plan. Your student will perform before their classmates during their regular scheduled music time. Mrs. Quintero will record their performance, adding it to a video presentation which will be sent to teachers to be viewed with their students on the last day of school. Unfortunately, parents will not be allowed to attend student performances or the final viewing. However, we would like to upload the video to our Ruth Clark Facebook page so our families will have the opportunity to see their amazing students in action.
