

Public School Choice

Building Name: Prairie Elementary School

This Title I school has been identified for school improvement. A school is identified for school improvement when it does not make adequate yearly progress (AYP) for two consecutive years. A school remains in school improvement until it makes AYP for two consecutive years. Federal regulations under the No Child Left Behind Act of 2001 (NCLB) require districts to offer all students enrolled in Title I schools that have been identified for school improvement, corrective action, or restructuring the opportunity to transfer to another public school in the district that is not so identified.

The following schools in the district are available for students that elect to transfer due to the Public School Choice option.
