

First things first: Add your account

Before you can send or receive messages, you have to connect your email account.

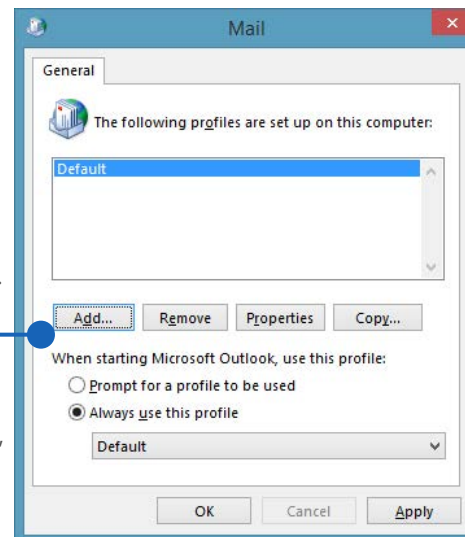

Due to already having a mail profile and with differences in Office 365 we have to do this set up a little differently.

Step 1: We need to open the **mail** settings. We can do this through the control panel or by searching for it and opening it directly.

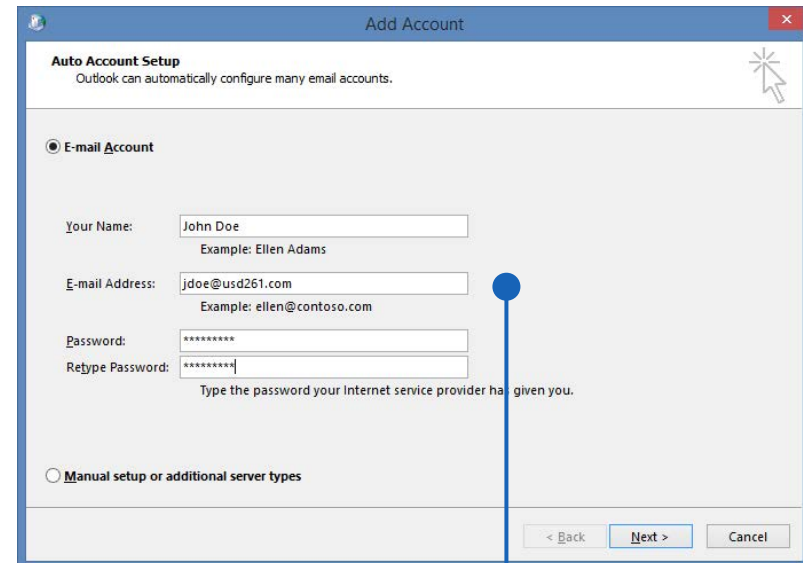

Step 2: Click "Show Profiles"

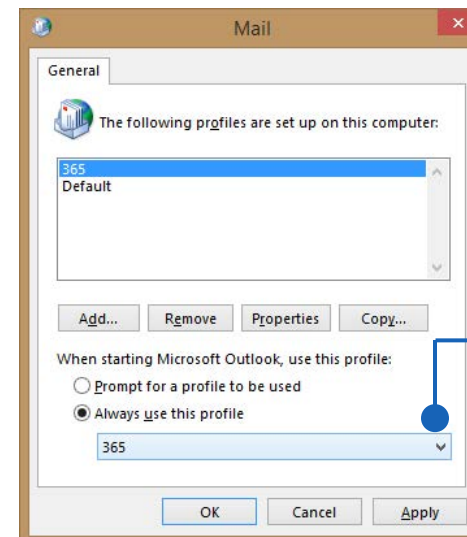

Step 3: Click "Add"

Step 4: Name the new profile, "365" will work. Click "OK"

Step 5: Enter your information including Name, Email, and Password. Click "Next". Click "Finish" on the next screen after it completes.

Step 6: Set our "365" Profile as the default.

Step 7: Open Outlook and it should begin syncing the new Mailbox. Congratulations!

You are done!

Quick Start Guide

Microsoft Outlook 2013 looks different from previous versions, so we created this guide to help you minimize the learning curve.

Make it yours

Customize Outlook. Choose different color schemes and different backgrounds, and synchronize them with your other computers.

Search

You can search a folder, subfolders, even other mailboxes.

Manage message tasks in the Message List

Categorize, Flag, or Delete messages right where they live—in the Message List.

Backstage view

Click the **File** tab to open the Backstage view, where you add account and change settings.

Reply from the reading pane

Reply and Forward right from the reading pane. Write a reply in the reading pane, too.

Peek

See a quick view of your Calendar, People, and Tasks. Even see upcoming appointments.

Do more in the To-Do Bar

The To-Do Bar displays the date navigator, your appointments, people, and your task list.

Create an email signature

To create a new email signature, do the following:

1. Click **File > Options > Mail**. Under **Compose messages**, click **Signatures**.
2. In the **E-mail Signature** tab, click **New**, and then type a name for the signature.
3. In the **Edit signature** box, type the text that you want to include in the signature, then use the built-in tools to format it.

If you've already created a signature, you can copy it from one of your sent messages and then paste it here.

Automatically add a signature to messages

To automatically add a signature to new email messages, do the following:

1. From any view, click **File > Options > Mail**. Under **Compose messages**, click **Signatures**.
2. Under **Choose default signature**, choose the signature to add to **New Messages**. If you want, choose a different signature for **Replies/forwards**.
3. To manually add a signature to a new message, from a new message, on the **Message** tab, in the **Include** group, click **Signature**, and then click the signature that you want.
